ROADSIDE SPRAYING PROGRAM 2021

The Agricultural Service Board of the M.D. of Bonnyville No. 87 and/or contractors will commence spraying roadside ditches along provincial highways and other municipal roads, as required to control the spread of weeds and brush growth on or about June 1, and through the summer until the end of September.

Those landowners living along a Primary or Secondary Highway, who are prepared to control the weeds along their property, should contact Emcon, the maintenance contractor that looks after these highways. You will be asked to sign a Weed Control Agreement stating that you accept responsibility for the control of weeds in the ditch along your property. If you fail to control these by mowing or spraying, the M.D. or Alberta Transportation may control them by whatever means it considers appropriate.

If you live on a M.D. road, please contact our Ag Department at 780-826-3171 or go online at www.md.bonnyville.ab.ca to fill out the Weed Control Agreement.

Landowners are reminded that the road allowances are owned by the M.D. or by the Province (in the case of provincial highways), and any activity carried out within the road allowances are done at their own risk.

For more information or to sign a Weed Control Agreement please contact

Janice Boden at 780-826-3171 or Emcon, Highways Maintenance Contractor, at 780-449-0502.

SIGN UP FOR VOYENT ALERT! TODAY

The Voyent Alert! system is online. Residents in the Municipal District of Bonnyville can now sign up for an account, and/or download an app that will provide them with important information, including road closures, emergencies (fire, flood, etc.), and other things happening in the community.

GENERAL MANAGER, INFRASTRUCTURE SERVICES MUNICIPAL DISTRICT OF BONNYVILLE NO. 87 BONNYVILLE, ALBERTA

The Municipal District of Bonnyville is currently seeking a dynamic individual to fulfill the role of General Manager of Infrastructure Services.

Our rural community (www.md.bonnyville.ab.ca) is a thriving municipality in northeastern Alberta, 2.5 hours northeast of Edmonton. The M.D. has a fantastic community base of 12,000 residents, and an excellent, growing economy consisting largely of agriculture and oil-related industries.

Reporting to the CAO, the General Manager of Infrastructure Services is responsible for the coordination of all activities related to water treatment & distribution, wastewater treatment & collection, storm water management, standard engineering design, road infrastructure, capital project planning and design, facility, and fleet maintenance. This position oversees three direct reports, 55 full-time staff, approximately 30 seasonal, and is responsible to manage an estimated annual budget of \$50M.

The ideal candidate will possess a post-secondary education in Civil Engineering, Infrastructure Management, or an equivalency in a related field as well as excellent leadership and proactive skills. Other duties include:

- Demonstrate leadership and direction to the Transportation and Infrastructure Managers, Transportation and Utilities Foreman, and all staff within the department.
- Form an integral part of the executive team to provide guidance on overall organizational strategic planning and growth strategies.
- Set organizational performance measures and subsequent evaluation methods in collaboration with the executive team.
- In consultation with the CAO, ensure the goals and objectives of Council are achieved.
- Provide expertise, guidance, and recommendations to the CAO, executive team, and organizational leaders in all aspects of Infrastructure Services.
- Manage the approved operating and capital budget and remain compliant to municipal policy.
- Manage infrastructure pertaining to capital project planning, design, and construction.
- Manage the departments' projects ensuring the mechanisms have been identified to measure, monitor, and report activities in relation to transportation and infrastructure.
- Plan, establish and direct an effective system to monitor fleet and facility maintenance.
- Supervise the maintenance, repair and operation of the water and wastewater systems.
- Ensure through staff or consultants, the inspection, and evaluation of all bridges, and other major drainage structures within the municipality's infrastructure.
- Develop terms of reference for required consultant services, solicit and evaluate proposals with a recommendation for consultant activities.

A competitive salary and comprehensive benefits package is available. Specifics will be discussed in a personal interview.

All interested candidates are invited to submit their resume, in confidence to:
