

Golden Lights Rhododendron

Golden Lights Rhododendron is an exceptionally cold hardy, deciduous azalea. Part of the Northern Lights Series, this shrub was cultivated specifically to withstand harsh winters, making it ideal for our prairie climate.

In late spring you will be drawn to its beautiful, golden, sweetly fragrant flowers. Pruning is recommended after the flowers are spent to control the size and shape of this shrub.

QUICK FACTS

Height: 1.2 m (4 ft)
Spread: 0.9 m (3 ft)
Moisture: normal, wet
Light: partial shade, full sun
Fall colour: Bronze to red
Growth rate: medium
Life span: medium
Maintenance: medium
Suckering: low
