

Tamarack

Tamarack is a small to medium-sized native conifer tree featuring needles that turn an attractive gold before dropping in the fall. This cold-tolerant tree grows well in very wet conditions, as long as it is exposed to full sun.

QUICK FACTS

Height: 15 m (49 ft)

Spread: 4 m (12 ft)

Moisture: any

Light: full sun

Fall colour: **yellow needles**

Growth rate: **medium**

Life span: **long**

Maintenance: **low**

Suckering: **none**
